

## **NWS National GIS Map Viewer, "The Viewer" - Where we are and where we're headed**

Kari Sheets (NOAA/NWS/DISS, Bohemia, NY)

This talk will include a brief demo of the functionality of the viewer, focusing on improvements of the last year. The talk will also include an overview of the milestones for the next 6 months of the viewer, the process for providing feedback or requirements, and a high level overview of the Viewer's software development lifecycle.
