Element	00z	01z	02z	03z	04z	05z	06z	07z	08z	09z	10z	11z	12z	13z	14z	15Z	16z	17z	18z	19z	20z	21z	22z	23z
6-hour Max Temperature 50th Percentile	192												192											
6-hour Miin Temperature 50th Percentile	192												192											
Temperature 50th Percentile	192							191					192							191				
Dewpoint 50th Percentile	192												192											
10-m Speed 10th Percentile (QMD)		198												198										
10-m Speed 50th Percentile (QMD)		198												198										
10-m Speed 90th Percentile (QMD)		198												198										
Probability of Speed => 17 knots (QMD)		198												198										
Probability of Speed => 30 knots (QMD)		198												198										
Probability of Speed => 48 knots (QMD)		198												198										
10-m Gust 10th Percentile (QMD)		198												198										
10-m Gust 50th Percentile (QMD)		198												198										
10-m Gust 90th Percentile (QMD)		198												198										
Probability of Gust => 17 knots (QMD)		198												198										
Probability of Gust => 30 knots (QMD)		198												198										
Probability of Gust => 41 knots (QMD)		198												198										
Probability of Gust => 56 knots (QMD)		198												198										
Deterministic Sky Cover	192												192											
Standard Deviation of Significant Wave Height		192						192						192						192				
Significant Wave Height 10th Percentile (QMD)		198												198										
Significant Wave Height 50th Percentile (QMD)		198												198										
Significant Wave Height 90th Percentile (QMD)		198												198										
Element colors																								
Currently existing element																								
New element (or methodology change)																								
Projection colors																								
Planned addition/expansion to SBN																								
Planned removal from SBN																								
Planned reduction from Operations																								
No change from current
