6 # Wind_IntoWind20ft.py
7 #
8 # Copies Wind grids into corresponding Wind20ft grids. Modifies the wind speed
9 # to increase the magnitude slightly. Used by the MakeWind20ft procedure.
10 #
11 # Author: GS
12 # 5/29/2004
13 # 6/12/2004 .. magnitude adjustment added.
14 # 7/8/2012 .. AWIPS-2 port .. GS
15 # 7/11/2013 .. magnitude adjusted from 0.7 to 0.8 as requested by Andy H.
16 # 5/10/2021 .. python2 to python3 conversion .. GS
